## ***Announcing: International Inspirational Speaking Tour by Seer and Author, Carol Heywood-Babrauskas***

Carol Heywood-Babrauskas, author of *Passionate Pinky and the Evolutionary Experiment*\* is a seer with a unique perspective of Earth's evolutionary path. She has been watching evolution in action since her third eye was blasted open during the Harmonic Convergence in 1987 and enjoys sharing what she sees in her delightful storytelling style to inspire hope for Earth and humanity's future. Carol's presentations, book signings and workshops have been well-attended, enthusiastically received and resulted in high book sales.

Her calendar is filling up, so contact us to book your dates soon!

### **Event Suggestions**

Carol can customize her presentations to fit any program and venue. Her experience ranges from hour-long talks to week-long workshops. An ideal event for Carol includes a free evening 1-2 hour talk and book signing, followed by a 1 – 2 day fee-paid workshop. She keeps her workshop fees as reasonable as possible and, as always, donates 33% of any profits to charities, which include The Tibetan Nun Fund and Tsunami Haven Projects.

### **Short (1 – 2 hours) Presentation Format**

#### ***“Going Up! Evolutionary Updates”***

Carol's unique perspective reveals the mechanisms of evolution to her in such a way that she can clearly describe them to those who are interested in finding out more about Earth's evolutionary wake-up call that has resulted in the major upheaval on the planet. She starts with an account of her personal wake-up call that blasted open her third eye 20 years ago. She then progresses through descriptions of how evolution works and stories of several key evolutionary events that are playing out a well-choreographed series of steps that are raising the vibratory rate of Earth's energy fields, a.k.a. ascension. Along the way she covers:

- the new rainbow—once again a sign of promise
- there is a bigger picture—interaction with interplanetary beings
- gifts from the gods—crop circles

- 2012? maybe not, maybe now
- tips on keeping up with Mother Earth as her vibration rises.

If the audience is interested, Carol likes to conclude the session by sharing beautiful and healing energies that she accesses through her open third eye.

**Interactive Workshop ( 1 – 2 days)**  
***“How to Live the High-Vibe Life”***

Carol will revisit and go into further detail about Earth’s evolutionary awakening into the progressive phase of evolution that is resulting in the raising of Earth’s vibratory rate. As inhabitants of Earth, we need to adapt our bodies (spiritual, mental, emotional and physical) to this lifting-up process and there are several simple ways to do that. They range from how to connect to divine resources to high-vibration nutrition.

Carol covers:

- Self Love
- passion
- creativity (hands-on activities with provided supplies)
- positive thinking, avoiding negativity
- manifestation from the heart as opposed to the head (always a limitation)
- divine connectivity, relationships with the gods
- energy work
- how to make sure we are receiving our DNA updates
- gentle movement/stretch/dance (participatory, so wear clothes to allow comfortable movement)
- high vibration nutrition—we are what we eat.

Again, depending on the interest of participants, Carol likes to conclude the session by sharing beautiful/healing energies that she accesses through her open third eye.
